FDNY Activity Book

Help Us Make NYC Safer!

1. WELCOME TO OUR TEAM

Fire and life safety starts with YOU!

Hi, Friends! We need your help to make NYC even safer. It starts with officially signing up for this important mission as a Junior FDNY Member in training.

Draw a picture of yourself in the box and fill in the information below.

MY IMPORTANT INFORMATION!

Name: _____

School: _____

Address: _____

Phone: _____

Scan here to watch this book's companion video, "FDNY Rescue Ride Along!" Join Hot Dog and Siren for a fire and life safety adventure!

"It's important to know your information in case of an emergency!"

"Hi, I'm Hot Dog. I am so proud you signed up to join the FDNY. You can make a big difference in your neighborhood!"

2. WE ARE YOUR FRIENDS

**Firefighters, EMTs and Paramedics
are your FRIENDS and are here to help.**

As a **Junior FDNY Member**, you should know how to recognize our uniforms and some of the special tools and equipment we use to protect our communities.

FIREFIGHTER

EMT

PARAMEDIC

3. FIRE IS NOT A TOY

Matches, lighters and candles are NOT toys and you should NEVER play with fire.

If you see someone playing with fire, tell a grown-up quickly so nobody gets hurt.

Put a big **X** over things you should **NEVER** play with.

It is also important to avoid things that are **VERY** hot so you are not burned. Only grown-ups should use such items.

"If you ever find matches or lighters, let a trusted grown-up know quickly."

Put a big **X** over the items above.

4. CALLING 9-1-1

Only call 911 when there is a REAL emergency like a fire, smoke condition, or medical emergency.

Connect the dots and color the emergency vehicles that will respond when you call for help.

CALL 911 right away when you think something is wrong because the situation can get worse quickly.

WE USE LIGHTS AND SIRENS!

When Calling 911...

KNOW YOUR LOCATION

If you don't know where you are, look for buildings, landmarks and street signs.

ANSWER QUESTIONS

Your answers will help determine the kind of help you need.

FOLLOW INSTRUCTIONS

The dispatcher is trained to help you while help is on the way.

"Help us get to you quickly. Be sure you know your address in case of an emergency."

5. HAVE A PLAN. STAY CALM.

Plan AND practice an emergency escape plan.

Your plan should include the two best ways to exit your home.

Everyone in your home should know how to unlock and open the windows and doors.

Designate family members responsible for waking children or older adults.

Keep stairways and exits clear.

Stay calm and establish a **MEETING PLACE** outside your home.

6. MY ESCAPE PLAN

Know ALL ways you can get out safely!

Using the example below as a guide, have an adult help you map out your escape plan. Don't forget to label all doors, windows and exit routes.

BUILDING TYPE

When you create your escape plan, ask a trusted adult to find out what type of building you live in. The type of building you live in, such as a one-story house or a very tall apartment building, will affect how you get out.

Always listen to instructions from the Fire Department during a fire or emergency.

7. STAY LOW AND GO

Be sure to drop low to get **UNDER** the smoke and heat.

Where you see smoke and fire, stay low and go. Smoke can hurt your eyes, so you can't see. It will make it difficult to breathe.

"CLOSE THE DOOR as you leave to keep the smoke and fire from spreading."

CLOSE THE DOOR

8. IF YOU CATCH FIRE...

STOP. DROP. ROLL. COOL. CALL.

DO NOT walk or run. It will make the fire worse!

to the ground.

back and forth to put out fire. Cover face with your hands.

the burn with cool, not cold, water.

911 for help.

WORD SEARCH

Search for these fire and life safety words, then circle them. Look up, down, across, forward, backward and diagonally.

"Treat burns only with cool water. Don't forget to call 911."

"Remember: Stop, drop, roll, cool and call 911"

GET ALARMED!

Only **WORKING** smoke/carbon monoxide (CO) alarms save lives.

Alarms give you an **EARLY WARNING SIGNAL** that something is wrong. Make sure they are working by completing the safety checklist!

✓ SAFETY CHECKLIST

Complete at home...

We have alarms on every floor and near where we sleep.

We test our alarms to make sure they are working.

We remind others to do the same.

← FIND THE ALARMS!

Can you find and circle the Smoke/CO alarms in this home?

"Carbon monoxide has NO smell or taste. Only working CO alarms can help warn you of danger!"

"Be aware, most CO emergencies happen in cold weather."

10. FINDING DANGERS

Help make this building **SAFER!**

CAN YOU FIND THE DANGERS ON EVERY FLOOR?

Put a big **X** over the dangers you find.

ANSWERS

(Left to right, starting at top):

ROOF: Lock on roof exit door.

ATTIC: Hot iron, smoldering cigarette, obstructed stairway.

3RD FLOOR: Overloaded power strip and outlet, lock on window gate, unattended cooking, fire extinguisher stored too close to stove.

2ND FLOOR: space heater too close to blankets and non-working smoke/CO alarm.

1ST FLOOR: Baby playing with lighter, unattended candles, e-bike lithium-ion battery is charging indoors AND near the door/exit.

BASEMENT: Clutter, combustibles (gas, papers) and paint stored near furnace, box blocking exit.

YOU DID IT!

Now YOU have the power to keep people safe!

This is to certify that you are

FDNYSmart

(Your name here)

Has learned the rules of

FIRE & LIFE SAFETY

and hereby is granted the title of

Junior Firefighter and Junior EMT
